### SAYS FILIPINOS OWE PROGRESS TO SCHOOLS

The American young man in the Philippines was the theme of Arthur Rudman, secretary at the Presidio station of the Y. M. C. A. in an address given yesterday afternoon at the Geary street headquarters.

"The 5,000 American young men in the islands are doing a magnificent

## ARMY OF LABOR FOR PEARL HARBOR

(Continued from Page One.)

ships, taking also into consideration the possibility of increased displacement. It is possible that the Pearl Harbor dock will be a duplication of the dock which is to be built at the Puget Sound navy yard.

"Sand is a consideration," said Parks. "We have to consider how best to secure the right sand for the concrete work."

Already has Engineer Parks received numerous applications from Hawaiians and others for work on the Pearl Harbor Naval station. He enters the name of each applicant in a book and it is probable that by the time work is ready to be commenced there will be more applicants than men required. Engineers, boatmen, masons, divers, concrete mixers, surveyors, carpenters, firemen, machinists, mechanics, watchmen and laborers will be required. Trained men, some of them, will come from the Coast.

"How to accommodate them is a question I am studying," said Parks. "Whether a private enterprise in the way of boarding and lodging houses is desirable I can't say. We have to work that out. It will, of course be desirable that those who work at Pearl Harbor reside there. No man will be required to work more than eight hours a day."

Some of the work at Pearl Harbor will be guarded from the eyes of the curious. The world is not to know everything that goes into the Pearl Harbor fortifications and means of offense and defense.

## WARSHIP'S WAKE ISLAND FIND

(Continued from Page One.)

lists, given up and insurance paid. She went out like the flame of a candle in a gale as far as the knowledge of the world is concerned. An American transport arriving here reported seeing rockets and chasing off in the direction whence came the supposed signals of distress, to no purpose; but that was not far from this port. It was then supposed that flares were being sent up from men in a boat.

And as for the Arthur Sewall, told as dead, what would she be doing, or what would her crew be doing up around Wake Island, some may ask. Survivors of the Arthur Sewall may have reached Wake Island. The Arthur Sewall left the Atlantic seaboard for Honolulu many days over a year ago and is almost forgotten.

Whoever are the twenty unfortunate, now turned fortunate indeed, the white wings of the Benjamin Constant, Captain Pereira, must have been to them a gladsome sight and those in Honolulu who had the pleasure of meeting the genial commander of the Brazilian well know that the survivors got the best aboard the Constant, and the Constant's best includes wine.

Being equipped with wireless the Benjamin Constant probably wireless her find to Japanese shore stations.

The day will come when everything that sails deep water will carry wireless apparatus whose power will be supplied by sun rays caught by lenses, an emergency, a live-saving wireless apparatus that may be thrown into a

work there," said Mr. Rudman. "A nation is being made. The Philippines have developed and improved wonderfully, as those of us who have watched their progress know. The schools, which now have 604 American born teachers and 450,000 pupils are changing the standards and methods of the Philippines as no other force could."

The tropical climate, the speaker thought, was in reality the only great drawback in the country for Americans. "This," he said, "does weaken a man, sapping his powers of resistance."—S. F. Call.

## NAVAL UNIFORM UNDER THE BAN

(Continued from Page One.)

ACTION OF A RESTAURANT WHICH REFUSED TO SERVE YEOMAN STIRS METCALF.

WASHINGTON, May 23.—Secretary of the Navy Metcalf addressed a letter today to John E. Reyburn, Mayor of Philadelphia, in protest against the action of the proprietor of a restaurant of that city in refusing service to V. V. Sturtevant, chief yeoman on the United States steamship Montgomery, which is stationed at League Island navy yard. When on the night of April 25th he entered the place, accompanied by his wife and nephew, service was refused for no other reason than that Sturtevant was in the uniform of an enlisted man of the Navy.

Secretary Metcalf says: "The department has long been endeavoring to secure proper respect for the uniform of the enlisted men of the Navy, and notes with profound regret that such incidents continue to occur."

He adds that the character of the enlisted man today is higher than ever before, and discrimination against the uniform should be severely discontinued. If there is no municipal law covering the point, he said, he would request that steps be taken to enact measures for the protection of the enlisted men.

### BONES OF ANIMALS FOUND UNDER LIME-ROCK STRATA

REDDING, Cal., May 23.—At the bottom of a fifty-foot shaft sunk through solid lime rock at the quarries near Kennel laborers yesterday struck a cave filled with bones of animals caught in a trap thousands of years ago perhaps. The small cave contained a wagon-load of bones in different stages of preservation. Some of them crumbled at the touch, but others were firm and retained their original form when brought to the surface. All are bones of small animals roughly estimated to be about the size of a shepherd dog. A perfect jawbone had tusks firmly set in the bone.

### PASSENGERS ARRIVED.

Per S. S. Claudine, June 4, from Hawaii and Maui ports: Rev. J. Wadman, A. Richley, Houn Chi, Lani Kai Kupu, H. P. Baldwin, Miss E. Soule, Mrs. Silva, Jao, Rodriguez, Mrs. Hendry, Mrs. Mist, E. Moller and wife, A. P. McDonald, S. H. M. Brown, John Gomes and wife, R. C. Seale and wife, Miss N. Dow, Rev. D. W. K. White, Miss White, W. P. Miller, T. A. Burningham, S. Barkhausen and 59 deck.

Per S. S. Noeau, June 4, from Honolulu: Mrs. M. Parmenter and 3 deck.

### MARRIED.

BOTELHO-PEREIRA.—At St. Augustine's Chapel, Waikiki, June 3, 1908, Mrs. Philomena Seabury Pereira to M. P. Botelho.

Life-boat so that distressed and languishing seamen may call to the world for help.

### KAISER'S SON TAKES A

LESSON IN ENGINEERING.

BERLIN, May 9.—Hardly a day now passes without the German Crown Prince, who up to a few months ago was regarded as merely a good natured sportsman, showing that he is, after all, a chip of the old block. This morning his imperial highness appeared unexpectedly in a motor car, which he was driving himself, before the Siemens & Shuckert Engineering Works and demanded an object lesson in the construction of turbo-generators. He had come direct from the Charlottenburg Technical High School, where he is at present taking lectures, and where he had just been receiving instruction on the machine in question.

The information imparted had not satisfied his thirst for knowledge, and he had driven off at once to the place where he could pursue his studies to the best advantage. The Prince remained an hour and a half at the works, following the explanation of the directors with the keenest interest.

## EIGHTY DEATHS

DECREASE OF TWENTY-FOUR FOR MAY COMPARED WITH SAME MONTH LAST YEAR.

D. P. Lawrence, Board of Health registrar general, reports the mortality in Honolulu for the month of May as males 47, females 33, total 80, a decrease of 24 compared with the corresponding month of 1907.

Annual death rate per 1000 of population, 24.42. Population, census of 1900, being 39,306. Non-resident, 1; deaths investigated, 3; postmortem examinations, 5; coroner's inquests, 4. Births reported, 68; marriages reported, 146.

By ages the 80 deaths were as follows: under one year 23; one to five, 4; five to ten, 4; ten to twenty, 5; twenty to thirty, 5; thirty to forty, 14; forty to fifty, 10; fifty to sixty, 10; sixty to seventy, 2; over seventy, 3.

By nationalities: American 7; Chinese 11; German 1; Hawaiian 34; Japanese 15; Part Hawaiian, 1; Porto Rican, 8; other 2.

Causes of death: febrile 1, diarrheal 1, septic 1, dietetic 4, constitutional 13, developmental 5, nervous 3, circulatory 8, respiratory 21, digestive 6, urinary 5, reproductive 1, accident and violence 3, suicide 3.

## FOR THE JOB OF ROAD SUPERVISOR

HOLT NOT A CANDIDATE—ENGINEER JOHNSON SUGGESTED AS A GOOD MAN.

James L. Holt, former tax assessor of this county, is not a candidate for the position of Road Supervisor, which is made vacant by the resignation of Col. Sam Johnson. He made this statement this morning when asked whether he was ready to put up a hard fight for the job. T. P. Cummings, the present chief clerk in the office, is one of the most prominently mentioned men, but it is doubtful if he can obtain the backing of the Democratic members of the Board, which will probably be necessary for an election.

Stuart Johnson, the engineer formerly in charge of the fortification work at Diamond Head with Captain Otwell, and now with the Rapid Transit Company, has been suggested as a good man for the position. He has made no application for the position as yet.

### PRESS COMMITTEE.

A special meeting of the Press Committee will be held this afternoon at four-thirty in the Promotion Committee rooms. A full attendance is requested. By order Chairman.

## WALDRON'S ATTITUDE

F. L. Waldron, in talking this morning on the differences existing between the entertainment and executive committees, remarked:

"I hope that my actions at yesterday's meeting will not be misconstrued. I was simply acting as chairman of my own committee, and as such only requested that our committee be treated with some courtesy, which I do not feel we have received so far from the executive."

"In conclusion I want to state that the Bulletin and Advertiser's reports of my action at yesterday's meeting of the executive committee were not correct. I demanded action and not adoption on the entertainment committee's report."

### BETHEL CHURCH OUTING.

One hundred and twenty-five members of the old Bethel Church left this morning on a special train at eight forty-five from the King street station as guests of Mr. and Mrs. B. P. Dillingham for a trip to Wahiawa and Haleiwa. The first stop will be made at Wahiawa, where time will be given for every one to have a chance to look at the pineapple fields and canneries. The train will then return to the main line and no other stop will be made until Haleiwa is reached.

A special lunch which has been prepared by the manager of the hotel will be served shortly after the special arrives. The guests will be given plenty of time to rest at Haleiwa after luncheon, the train being due to arrive at the main station here about five forty-five.

### ROBERT LEWERS ARRIVES.

The schooner Robert Lewers yesterday afternoon arrived from Port Gambier with lumber for Lewers & Cooke, making the trip in 21 days.

## AUTOMOBILE ACCIDENT

Gus Sakuman was driving a Kissel car up Queen street this afternoon, with Dr. Norgaard in the car, when the machine owing to wet streets skidded at Queen and Kaahumanu streets. The car struck a telephone pole, breaking it off close to the curb. As for the car its left front tire was punctured and the steering rod and radiator badly bent. Nobody was hurt.

## NEVADAN'S LAST CALL

American-Hawaiian S. S. Nevada, Captain Greene, from Seattle, May 27, last night arrived off port and entered the harbor this morning to load sugar here and at Kahului for San Francisco. This is her last trip to these islands, for on arrival on the coast she goes into the permanent run with the Nebaskan between Salina Cruz, San Diego, San Francisco, Seattle and Tacoma. Honolulu will much miss Captain Greene.

## POTTER'S PRIDE

Ten days from San Francisco is a record that goes it over anything for a long time and Captain Potter of the barkentine Coronado is receiving congratulations. She was off port last evening and entered the harbor this morning. When she last came here from the Coast she made it in a little less than eleven days and, if Potter goes on in this style, he will soon come down by wireless.

## POOLE NOT WANTED

Chief Taylor last night received a cable from Chief of Police Sullivan of Sacramento to the effect that W. E. Poole of Fort Shafter, against whom a charge of larceny had been made, might, as far as Sacramento is concerned, be restored to the camp, as there is not sufficient evidence against him to warrant his being conveyed to the mainland for trial. So Poole is back at Fort Shafter.

### THE WATER PROBLEM.

A large number of notices have been sent out to residents of the city who have been wasting the public water and Superintendent Campbell, of the Public Works department, has received many answers. In all cases where reports have been made, closer attention to the rules has been promised and the co-operation which is being received by the department from the general public is heartily appreciated.

### STATE'S EVIDENCE.

Kawakama, Moromatsu and Mahelona were in police court this morning for gambling at rotation pool. Mahelona turned state's evidence and got off with a reprimand while the Japanese were each fined \$9. Moromatsu is a bad specimen.

### CASTLEBERRY IN CUSTODY.

Castleberry, U. S. N., who recently broke from the brig at the U. S. Marine barracks, was at 1 o'clock this morning returned to the keeping of the barracks. He it was who was prevented getting away in the Manchuria by the police. The guard on duty at the time of Castleberry's escape is now himself in the brig. An official investigation is under way.

### A RIDE BY MOONLIGHT.

Auto rides around Honolulu are pleasant but they do not equal in any way the ride to Haleiwa by moonlight. There are to be several auto parties to that favorite resort this week and next, so that it is believed there will be lively times at that well-known and popular hotel. Manager Biddood enters specially to auto parties while not neglecting those who come down on the trains. He knows what the people want after a sixty-mile ride and his staff of helpers know how to serve. If you are after something in the line of cuisine, let him know by phone an hour before you leave town.

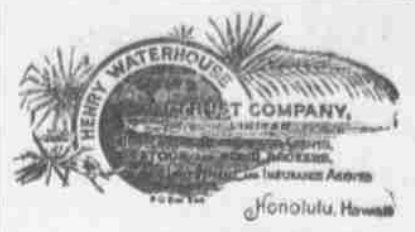

Fine Job Printing, Star Office.

## NEW ADVERTISEMENTS
